

# John Adams Middle School

8th grade students enjoying lunch in the new cafeteria opened on Tuesday, January 24, 2012

The new cafeteria is much larger and holds about 235 students. The serving area offers two lines instead of the previous single line.

Students were excited to be served pizza on this opening day. (Pizza had not been served in a year since all the food was being transported in during the construction process.)

New "state-of-the-art" kitchen means that "the possibilities are endless" in the type of meals that can be served.
